Guidelines for leaving bags in someone's vehicle

Edinburgh Frontrunners members may choose to offer the use of their car boot to store other member's bags for a short period, such as during a run or walk. These guidelines are intended to help members keep belongings, vehicles, and relationships safe when bags are left in another person's car for a short period of time.

1. If you leave your bag with someone else, it is at your own risk. If something goes wrong, you will not be insured for loss or damage.
2. Do not store things which might leak, explode, ignite or otherwise damage the vehicle
3. Please avoid bringing expensive or sensitive materials to our runs
4. You should come early and deposit your bag in good time: a few minutes before we start the announcements
5. Discuss a suitable pickup time with the vehicle owner
6. Do not leave bags or property unattended on the street
7. Lockers are available at the Commonwealth Pool and at Glenogle Pool for a small fee
